CEO Client Profile

Design IMPORTance

A COMPANY THAT MEETS DEADLINES ON TIME, EVERY TIME!

Club & Corporate Specialists

In only 4 months since Design IMPORTance set up offices at Pacific Tower in Hawthorn, larger offices in the building have been required. Such is the growth of this dynamic and innovative company who operate in an extremely competitive and cluttered industry. A strong testament to the service orientation and customer values that underpin this company. Exceeding client expectations in an otherwise unreliable industry offers a point of difference that the competitors just cannot match. It is that simple!

Design IMPORTance is primarily a wholesaler & distributor providing companies, sporting clubs and associations with a comprehensive range of stock service & custom made uniforms, clothing, headwear, bags, promotional products & sporting goods to suit every age & any budget. All embroidery, screen printing, laser engraving & other decorative requirements are available to offer that personalised touch to all products. Dealing with well over 300 different manufacturers and suppliers and no order being too big or too small, there is little this company can not do!

The shortcomings of competitors in this industry are what Design IMPORTance specialise in doing well, offering clients a peace of mind normally not associated with products and services of this nature.

Specialising in corporate branding and business image ensure clients 'message' remains consistent across all mediums, with any products or services supplied being relevant and targeted to client objectives.

SPECIAL OFFER EXCLUSIVE TO CEO TENANTS!
